

**High performance requires we all play our part perfectly.**

The **Motherson Group** is one of the 21 largest and fastest growing full system solutions providers to the global automotive industry, serving multiple further industries, such as rolling stock, aerospace, medical, IT, and logistics, with over 135,000 employees across 41 countries worldwide. **Samvardhana Motherson Reydel Companies (SMRC)** is the group's specialist for innovative car and truck interiors. With facilities in Europe, Asia, and South America, we design, develop, and manufacture complete high-quality interior systems, such as cockpits, centre consoles, door panels, and decorative surfaces for multiple vehicle manufacturers worldwide. Given our fast growth, we are constantly looking for talented new colleagues to become part of our team.

FRANCE: GONDECOURT PLANT

## ROBOTICIAN

### Your tasks.

Integrated into the Methods and Industrialization Team in Gondecourt Plant in France, your main mission are as follows:

- Develop the specifications of the automated installation
- Develop (or write) machine risk analyzes
- Ensure the conformity of the machine park (diagnostic - Curative & preventive activities)
- Design and produce robotic cells for associated peripherals
- Carry out the functional analysis of the installation and convert it into an automation program
- Check the automation program by a series of fields tests
- Carry out the commissioning adjustments of the devices and instruments ordered (actuator, motor, distributor, transmitters, sensors, regulators...)
- Install automation equipment or other elements of the installation
- Determine the automation hardware, software and network architecture of the installation
- Provide training for users to allow skills transfer
- Configure, modify or install industrial IT equipment

### Your profile.

- Graduates of an Technician degree in Robotics
- Professionally experimented in robots implementation
- You master vision systems (Cognex, Fanuc) and have PLC programming skills (Rockwell), operator terminals, and knowledge on industrial IT.
- Fluent in French.

### What we offer.

- You know how to work on several projects in parallel, manage priorities, plan tasks and report.
- Your interpersonal skills and your team spirit allow you to join people in a functional relationship and to work in cooperation.
- You have a sense of service; you are available and know how to adapt yourself to project constraints.

### How to apply.

- Please send your CV and Motivation Letter to Lylia Housseau (HR Manager) at [lhached@smrc-automotive.com](mailto:lhached@smrc-automotive.com) And before 19th April 2021
